If You Could Just Take That Little Step

If you could, if you could just take that little step and enter in and worship me; if you would just take that little step and raise your hand unto me and just come and love on me you would see such a love fill your life; you would see all the hurt and all the pain that you had in your life; you would see it just go away; if you could just step in; just come on in; come up to me my child I love you; if you could only receive how much I love you; I gave my only Son for you; I had him come so you could be with me; so you could be healed; so you can have joy in your life; oh such joy that you could have every day of your life by just saying yes Lord I love you; yes Lord I don't understand this worship we do; I choose to enter in; I'll take that baby step and then I'll take the next and I'll worship you; I step into you.
