The Miraculous Lives Inside of You

For I'm raising up, I'm raising up an army in the earth such as not been like since the book of Acts. My prophet Joel told of these days in which a company would come in the end and invade in like the locust and the grasshopper they would cover the earth and there would be no barrier set up before them that had the capacity to hold them back. My church has not seen the vision in front of them of those who lived in the power to portray such an army until these times, much has been lost in the way by man's doctrine and fears and anxieties, but I say unto you not only among you but among many other camps I'm raising up this go forward army: This army that is seeing and hearing and listening to what the Bridegroom would say in these last days. So I say unto you that I come forward to you; begin to paint inside of you the portrait the understanding of what has not been so that you can see, for if you in yourself imagine the grand things that are spectacular you can overlook my miraculous by waiting for those things that are spectacular but I say unto you that every time that you gather and every time that you mention my name and every time that you go into the closet and spend the time that you're bringing forth the miraculous. The spectacular will come and names, the name of Christ among the names of those listed who will bring forth will be mentioned among great and mighty works and spectacular things in which eyes have yet and have never seen; but I say to you that long before the spectacular the miraculous lives inside of you. Bring forth that which is an image that I'm placing within the inside of you on a continual basis. Do not look to the right or left do not look to sensationalism and do not look to your mundane days or your highs or lows for have you not even this morning sung and once again rehearsed that in me there are no highs or lows. In me there is a place of continual dwelling and that place is in your new nature that I've placed within you. So bring forth this portrait inside of you of what it looks like for a last day church; bring forth this portrait that even goes beyond what you've imagined it to be; let me paint it within you and bring it forth in these last hours, saith the Spirit of Grace. Hallelujah.
