### **What a Love Affair**

*For the Lord is saying I'm coming; I want to minister to you in every way.*

*Open up your life, open up your life to me and I'll take away the hidden parts; all the dark parts; I'll come to you and you alone you'll know me. What a love affair we'll have together in this place.*

*I'll visit you; your sleep shall be sweet when I visit you.*

*Oh how I love you with an everlasting love far beyond your imagination; how I long for you in these days.*

*I see the things that make you what you are; I see the things from childhood that scarred you I see the things that bent you like you are; let me straighten you with my love from afar; let it come near to you; let it appear to you.*

*Many things that you've blocked out of your mind through fear; I'll not bring them up again but I'll wash them from you; I have a place where I place all, where I place all unwanted. Everything that's against you; every thought every emotion I have a deep, deep sea in me that I place all these things in and I've replace them in you with a river that flows from my throne with the life that comes from my very being.*

*Hallelujah, Hallelujah; thank you Jesus.*
