I Love the Worship You Give Me

I love you so much. I love you so much and I love the worship you give me. I love the worship you give me for then we are one as you worship me. As you worship me things are done in the intimacy of the moment of the hour; so worship me, worship me even in the stillness, even in the quiet. Oh there's such love. Oh I am all the love you need. I am all the love you need. So just worship me, worship, worship, me. Be in my presence and allow me to love on you, love on you, hallelujah.
