You're Heart Singing Praises

You don't have to have music to worship me. The greatest worship of all is you just worshiping me with all of your heart. Out of your heart singing praises to me. Out of your heart loving on me, that's the greatest praise of all. For you just to worship me, lift me up, adore me and magnify me. For when you magnify me my presence surely comes in your midst. When you magnify me all things are accomplished. Things are accomplished when you, just from a pure heart, worship me and adore me and magnify me.
