### **Prophecy070225 – Feb 25, 2007 I Have the Capacity to Create a Solution**

That you would take hope in Me, says the Spirit of Grace, for I am the almighty El Shaddai, the all sufficient One. For you to take hope in Me is not to take false hope but is to take the reality of the things and place them over in a place with Me that I can get the job done for you, says the Spirit of Grace.

You have said, “I have racked my brain, and I have found no solution. I have gone to the end of this and found no way out.” Oh, but know this is what separates Me from you, in that I am God. I am Creator, and you are the created. Know that I have the capacity that even if the end has not yet ever been thought of as in the solution for your problem, know that I have the capacity to create a solution for your problem, says the Spirit of Grace. Let Me, says He, scheme for you.

Do you not understand that I will plot and ploy and scheme for you, and that I will bring in the other members of the Godhead, and we will sit together, as you would think, and explain to you, for I know these things even before they began and have a solution before they began. But for your understanding know this: If it were not possible for any solution to be found on earth for your dilemma that the Three made One will council together, and as was brought forth the plan of salvation even before the foundation of the world, We will plan and scheme a scheme so wonderful that you will not know how you got past it. But you will have walked through it in My grace and in My mind says the Spirit of Grace.
