Prophecy080210 – Feb 10, 2008 You Will See Yourself Going Forward

The Church, My Church, says the Spirit of Grace, has yet to see what they will see, yet to know what they will know. For truly, the pages of My Word, which are much more than black and white and just memory verses, they will become the living legends inside of your spirit, says the Spirit of Grace. For you will enact those things that you have seen others do in the Word, and you will say, “Is this me? Is this really me doing these things?”

Oh yes, says the Spirit of Grace, for I have empowered you and will continue to bring you along so that the quest that I have asked you to come and perform, you will not only perform but before you perform, you will see yourself as having all of everything that they had and you, yourself, going forward in My Spirit.
