

## **Prophecies – The Family Prayer Center – 2009**

### **Prophecy091227a – Dec 27, 2009 My Desire Is to Increase You**

He said, Did I not say that if any man would come unto Me and enter the door, behold, he would enter into pastures, and he would go out and come in? For many places I desire to lay you down, many places I desire to bring you to and increase your knowledge and increase your edification and increase the glory that you walk in. But know this: It will not be the things that you don't know that will bring you into the next level. It will be the things that you know and do at this level that will bring you into other pastures and places of rest, says the Spirit of Grace.

Many run after things that are new and try to fill voids inside of them, and yet have not taken up and done the things, which on whatever level they came to, that I was able to get across to them, and so discarding those things and going on to seek other things will only bring in a place of delusion and will cause those things which are of truth in those places only to be of a lesser value. But stand in this place and do the things that I have said.

Pray in the Spirit and edify yourself often and magnify Me. And know this: There is in itself that which revives and that which brings forth and that which comes forth and that which motivates and brings forth that no man can come and motivate you to. I bring forth these things by that which I have already placed within you, says the Spirit of Grace.
