Prophecy100502 – May 2, 2010 The Change of Men's Hearts

The greatest works that I will do in these last days will be the change of men's hearts. I will take out the stony heart and place in them a heart of flesh, says the Spirit of Grace. And people and places that you did not imagine and could not possibly, based on present circumstances, you could not imagine the change that would take place in their life, watch and see, says the Spirit of Grace, for My greatest work will be what I prepare for My reception, coming to inhabit this planet. And you will be in awe watching those who once stood in a place almost disregarding and cursing God and standing in a disdained place, and yet because they will taste My goodness for the first time, the masses will repent. And you will shake your head at many, many you thought incapable of ever coming into God. Watch and see, says the Spirit of Grace.
