### **Prophecy100512 – May 12, 2010 Practicing Presence**

If you understood the practice of Presence and what it means to your life, then with all the greater anticipation, you would eagerly participate, but know this, that it is My utmost desire to bring you in and to possess all the kingdoms of your life. But on your part, much of your life, and to many of you, your life depends on the days ahead, whether you are able to hear My voice. To stay when I say stay and to proceed when I say proceed, for the Church that knows My voice and anticipates My Presence will enter into this last outpouring, and many will be a part of the great supper that is to be fed to the nations. But all those who desire now in these days, prior to that outpouring, must anticipate and practice Presence with great sincerity, that I may come and do My final work in them in preparation for that day, says the Spirit of Grace.
