### **Prophecy100725b – Jul 25, 2010 Put Me On the Spot**

This He said by instruction, so you'll know this is what was lacking or has been lacking. For some of you have had questions about the comparison to what you see in the Word in reflection to what you see in the Church, the modern Church.

Know this: Those people put Me on the spot, and I came and proved myself to them, says the Spirit of Grace. When you put Me in a position to be God, then I can show up as God. But when you find and look for every other kind of source before you have exhausted yourself in Me, then I am very limited in the supernatural, and I will come along with everything else that you try to add and squeeze Myself into any place that you give Me. But know this: Those who will be strong and will do exploits will be those who stand on a blatancy of My Word and say, "Okay, God, prove that You are God," and watch Me: like I did for them, I will do for you, says the Spirit of Grace.
