Catch a Pristine View

He says: Let Me become the Vision of your life. Let Me begin to describe to you the scenery of your place of advancement in Me and in the Father. Catch a pristine view of what it looks like to come where I am. For I desire to visit you personally in ways that you've never known, and though you've heard My voice oftentimes saying, "Come up higher," often you have failed to let Me describe to you that place in its beauty. For I desire to bring you into a room and into a garden thoroughly furnished, thoroughly furnished, and bring forth the absolute completeness of who you are in Me as an individual, says the Spirit of Grace.

As you begin to see Me through My eyes and as I am able to cause you to see yourself in Me through My eyes, then am I able to empower you in places that you've never gone, for I desire this more than you know. And I desire to describe this place to you more than you've ever seen, says the Spirit of Grace.
