### **Works of the Apostles Manifested**

*Prophecy151227B*

*As many of the patriarchs even in modern era that went before you and saw my hand in the miraculous and looked into the things as the meticulousness of how that I changed the physical and how that I brought miracles into the body. They studied those things in the word and they studied those things in science to the point that they depended upon me and believed that every time that they laid their hands upon people and prayed things would happen. You will see in these days those kinds of changes take place. You will see gradual changes and you will see instantaneous changes but all of them will be from me, saith the Spirit of the Lord. And you will know that you have entered into an era of time in the church in which those who seek my face in truth and in holiness, will once again see the works of the apostles manifested, saith the Spirit of Grace.*
