### **Expect the Very Best**

*I so, I so desire this hour in my church to come and redefine to the church at large what having church and coming together is all about. For, know that unless my spirit is passed through a congregation and unless my glory has been allowed to come and every agenda set aside, the holy one able to speak, then no service has been carried out. I desire to come and do the works; do the works that I left here from the very beginning, saith the Spirit of Grace; and not only that my word should be taught but my word should be experienced, saith the Spirit of Grace. So when you come together and worship me like this, expect the very best. Expect the very best. Expect the very best. This was commonplace in the beginning when my church met in solemn places and in homes and gatherings wherever they could find a synagogue or any place that would let them come together. I left not only the apostles doctrine but I left the power of my Son, saith the Spirit of Grace. I left that power to confirm that their words were true words; words that were dictated from the heart of God and the very sayings of Jesus their Lord and Savior. For I desire to verify and to certify to the world and to the church that the works that I did, saith he, you'll do also, but even greater works because I go to the father. Hallelujah Jesus.*
