Do Not Fight the Enemy on His Plane

Prophecy210801 – August 1, 2021

Many of you are fighting the devil in your bodies or in your emotions on his plane, on his level. In other words, you're using flesh to combat things in the spirit. It doesn't matter if it's emotional things, or things in your body, or things that you're dealing with in your finances, or your children. As long as you keep fighting those things with your mind, or on an emotional plane, you're not going to see victory.

What He said in that short tongue, and this is interpretation of it, is that...

You've got to go to a place where you [not only] realize, not only realize His authority – it's one thing to say, "Yes, amen! Glory to God! Believe that! Believe that! Believe that! Believe that!" – it's another thing to exercise it. To stand in your kitchen, to stand in your bathroom, in your shower, driving down the [road], and just continually speak those things that be not as though they were, and speak into existence, speak the final thing! Speak the end result! If you're mute, He has nothing [to work with]. I don't care [what you may think], you can die! You can die not using this – your authority, your mouth. You fight him on his ground, you'll lose.
