

Prophecy – The Family Prayer Center

Speak to the Personalities of Fear & Infirmity

Prophecy 240731b – July 31, 2024

There's more in the Spirit, says the Spirit of Grace, than My Church understands. And much has been disintegrated by the natural, and because of it, My Church hasn't seen the power. So much is contributed to the natural, equivocated into the natural. Demons are hiding behind reasonings. But I'm asking My Church to raise up as spiritual beings and begin to speak to things as personalities. Fear in anyone's life that's hearing this right now, it's a personality. Phobias, anxieties, [etc.]

When I say it's a personality... There's a natural fear of not stepping out in front of a semi-truck that's going down the road. You don't do that. You know that's a fear that's natural. But there are anxieties in the Church.

I can even see things in the body right now. I see tentacles, or things in the body like a hand, reaching in there. A dark hand, causing affliction. There are those out there listening and even in here, that right now, I speak to the demon forces. The person's not evil, but I speak to those spirits of infirmity and spirits of anxiety. You come out, you come off. Whether you're reaching, whether you're inside as in touching the internal organs, if you've got a finger in there or just sitting on the shoulder affecting the mind and emotions, right now in the name of Jesus, I pull that out and I pull that off – we together, the Body of Christ, in Jesus' name. I command it right now, right now, GO, in Jesus' name, you foul spirits.

Know this, know this, says the Spirit of Grace, that not always, but sometimes, infirmities in the body, as My Word proves, are attached to demonic forces. And when you're dealing, whether with someone or something that is a fight of your own, ask of Me, says the spirit of Grace, to open your eyes and see into the spirit realm. And I'll show you. I'll show you as I showed Him, so that through discerning of spirits [you can have victory].

Come to this place where you know My voice so that I can use you as an army. So that you discern, you discern whether it's just a physical infirmity or a

physical infirmity attached to a spirit. Because know this, that if it is a spirit, prayer just against the infirmity won't entirely work until the spirit is gone, says the Spirit of Grace.

I'm asking My Church to grow up, to go to another level of spirituality, and to think like spiritual beings, which you are. And look into the spirit realm, look into the spirit realm. You're citizens, you're citizens in two places. You have an earthly citizenship, and you have a heavenly citizenship. Learn to work in both of them, says the Spirit of Grace.
