He Renews Our Minds & Memories

Prophecy240825aSP – August 25, 2024

Old things have passed away and all things become new. He's just telling me. This is as much for me as it is for anybody. Even your memories. If Paul, formerly Saul, could move past the fact that he murdered Christians, and go on to do such great things, how much more can we do? When it says that He renews our minds, truly get down to the practical sense; He's rewiring your brain. And the memories of things that happened to you, things that happened to me, they're not going to hold us the same way they did. They're not going to. [Old] things have passed away and all things have become new. We're new creations, even in our minds. Even down to those neurons, those rewiring of neurons, in Jesus' name. The spiritual renewing of our minds in the practical sense and in the spiritual sense. We're free.
