Graduating From Glory to Glory

Prophecy240901b – September 1, 2024

These days that are now upon you, I can say unto you that the former things are passed away and behold, all things have become new. There has been a place in the spirit as of late of graduating from glory to glory, says the Spirit of Grace. And even as I move this morning to couple with you as hands laid on you for the purpose of continuing in that, and graduating more and more, giving yourself over to this place, know that lines have been crossed in a good way, in a powerful way. And old things are being passed away and behold, all things are made new.

For what I'm granting to My Church and those that are on this walk of life and mortification, you're going to see this graduation inside of you of glory to glory, and a burning hunger and thirst for this place of intimacy and fellowship which will turn into a resident anointing inside of each of you. My Church, My Ecclesia I'm bringing forward in these days. And this is what you've longed for, this is what you've asked for, and now it's here. Something is come from My presence, something is come from My glory, and it's not just touching the leaders, it's touching everyone who yields to this purpose and to this place, says the Spirit of Grace.
